2012 OFA Perennial Production Conference

PERENNIAL  
Production

9/10/2012 - 9/12/2012

Grand Rapids, Michigan

CONFERENCE

Perennial producers of all levels are urged to attend this unique event, which offers an intimate educational and networking experience focused 100 percent on perennials. Through workshops, seminars, tour, and a trade show, learn everything you need to know about perennial production and retailing.

Don't think this is a conference focused solely on producing perennials. If you retail perennials, there's something for you too. Whether it's the perennial tour or the track of retail-focused sessions, you'll find information you need to succeed in the world of perennial retailing.
