Ball Seed Customer Day

7/27/2012 - 7/27/2012

The Gardens at Ball, West Chicago, Illinois

The Ball Gardens have been the evaluation and testing grounds for the world's wealth of horticultural introductions and improvements for over 75 years. What began as a row trial garden for seed varieties in 1933 has grown to encompass display beds for annuals and perennials, including the newest plants from the industry's leading breeders and marketers. The gardens are designed to inspire visitors as they compare products in an exciting and innovative setting, and to spark creative ideas for home garden and commercial settings.
