Cleveland Pollinator & Native Plant Symposium

9/22/2017 - 9/22/2017

Cuyahoga Community College Eastern Campus, Highland Hills, Ohio

Participate in a lively, full day program exploring the importance of increasing biodiversity and ecological resilience. Seven regional and national experts will lead eight different sessions with a focus on increasing knowledge on the use of native plants, the care of pollinators such as butterflies and bees, and shifting traditional horticultural practices to designing landscapes for beauty, biodiversity, and ecological benefits—whether for a small backyard or corporate campus.
