## Western Illinois University School of Agriculture Ag Career Fair

10/3/2018 - 10/3/2018

Western Illinois University, Macomb, Illinois

The 21st Annual Agricultural Career Fair is specifically designed to focus on agriculture career opportunities. The goal of this Fair is to see that our students are exposed to the different careers available. By dealing directly with agriculture students, you will be able to give them more insight into the professions attainable within the ag industry. Your company does not need to have positions or internships open to participate in the fair.
