Ball Publishing Webinar: What Makes a Growing Container Automation-Friendly?

4/18/2019 - 4/18/2019

1:00 p.m. EST/12:00 p.m. CST

Having the right container—one that fits the requirements and specifications of your equipment—is critical. But what makes a growing container automation friendly? And if you don't have automated equipment, are there any manual solutions to help minimize labor costs while maximizing efficiency? The guest expert is Chris Soltis, Director of Sales for HC Companies, maker of ITML and Dillen pots, among others.
