AmericanHort Webinar: Glyphosate Update

6/24/2019 - 6/24/2019

1:00 p.m. - 2:00 p.m. CDT

WEBINAR

Glyphosate-based herbicides have provided efficient, safe and cost-effective weed control for more than 40 years, but recent reports and events have raised concerns over its safety. Come learn about the EPA's position, the mountain of scientific evidence that supports its safety, and uses in the green industry, including the pros and cons of glyphosate alternatives. Panelists include Ms. Chris Olinger with EPA, Dr. Scott Senseman, weed scientist from University of Tennessee, Dr. Jeff Derr, weed scientist from Virginia Tech, and Dr. Joe Neal, weed scientist from North Carolina State University.
