IPM Essen

1/28/2020 - 1/31/2020

Messe Essen, Essen, Germany

The world's leading horticultural trade fair revolves around solutions and innovations in the green sector. Here exhibitors increasingly present products that are sustainable and suitable for climate change. These include heat- and cold-tolerant plant and shrub varieties, environmentally friendly and resource-saving packaging solutions, organic fertilizers and substrates, air-cleaning, easy-to-care for indoor plants and pots made of sustainable and biodegradable materials.
