## South Carolina Certified Landscape Professional Online Course

8/24/2020 - 8/24/2020

Online

Certification as a South Carolina Certified Landscape Professional can save money with use of best management practices, boost employee morale and confidence, provide a competitive edge in the marketplace and protect South Carolina's natural resources. This certification is not a substitute for state issued pesticide licenses. The goals, subject matter and procedures of this certification program are different from the licensing programs and exams conducted by the South Carolina Department of Pesticide Regulation.
