

UNH Cooperative Extension Landscape and Greenhouse Team Webinar Series: New PGR techniques for Northern Ornamental Growers

3/23/2021 - 3/23/2021

12:00 - 1:00 PM Eastern/ 11:00 AM - 12:00 PM Central

Every Tuesday February 2nd to March 30th, the UNH Cooperative Extension Landscape and Greenhouse Team is hosting Plant Production lunch time webinars. One pesticide credit will be available for each of the talks. In this webinar, Dr. Roberto Lopez, Assistant Professor/Controlled Environment/Floriculture Extension Specialist at Michigan State University will discuss how foliar rooting hormone applications compare to dips on rooting of difficult-to-root species, use of micro drenches, and how temperature and water alkalinity can influence the efficacy of PGRs.
