

## UNH Cooperative Extension Landscape and Greenhouse Team Webinar Series: Root Zone pH and Nutrient Management for New Hampshire Growers

3/9/2021 - 3/9/2021

12:00 - 1:00 PM Eastern/ 11:00 AM - 12:00 PM Central

Every Tuesday February 2nd to March 30th, the UNH Cooperative Extension Landscape and Greenhouse Team is hosting Plant Production lunch time webinars. One pesticide credit will be available for each of the talks. In this webinar, Dr. Paul Fisher, Professor and Extension Specialist/Floriculture at University of Florida will discuss management of factors that push pH up or down, and tips on choosing a water-soluble or controlled release fertilizer and container substrate suitable for greenhouse crops in NH.
